LOCALS

Bought Morrill is a patient at the Veterans' Hospital, Togus.

Andy Davis is the guest of Mike Connolly in Portland this week.

Mrs. Barbara Lucas is attending classes at Farmington State College.

Mr. and Mrs. Herbert Rowe spent the week end at Old Orchard Beach.

Mr. and Mrs. Steve Hoey, Dennis and Sandra, spent the holiday in town.

Mr. and Mrs. Rodney Eames, Ed and Sam, spent the week end at Wytopitlock.

Sam Davis and Karen Page are attending Methodist Camp at Wytopitlock this week.

Allen Saunders is at Hillside Farm in Fairfield, Maine, attending his riding program.

Mr. and Mrs. David Thompson left yesterday for a three week vacation in the Maritimes.

Rev. and Mrs. Milton Gross have moved into the Ernest Perkins apt on Mason Street.

Mr. and Mrs. Vance Richardson, Carol, Martha and Steven are on a month's trip to Mexico.

Mr. and Mrs. Wallace Saunders, Ed and Patty, are spending the week at camp on Moosehead Lake.

Mr. Claude Bean is visiting his daughter and family, Mr. and Mrs. Robert York, Boothbay Harbor.

Mr. and Mrs. Gardner Gorman are a family gathering at the Apple Brook cottage, Songo Pond, Monday.

The Perce Kratoch, Morris, N. J., is visiting her brother, Charles A. Farrar and family at several weeks.

Mr. and Mrs. Harold Chapman of Lancaster, Pa., have returned after spending several days with Mr. and Mrs. John Currier.

Mr. and Mrs. Henry Domkowski and family have moved into the Apple Brook cottage, Songo Pond, where they recently purchased.

Mr. and Mrs. Jesse Doyen spent the holiday at their camp on Songo Pond. They had as guests, Mr. and Mrs. Connie, and family.

Mr. and Mrs. Philip Lesperance and children of Berwick joined a family gathering at the Greenleaf cottage, Songo Pond, Monday.

The Edith C. Rice and sons, Clayton, Burnie and Edward were in Melrose, Mass., visiting Mr. and Mrs. Walter B. Rice on July 4th.

A moose was seen swimming in the pond by the Androscooggin Bridge Wednesday. The animal swam up the road toward Bethel.

John Brown and Ruth Tellepsen are enjoying a bicycle ride with a group in the British Isles reported on their way from London to Scotland.

COMMENTS FROM THE TOWN MANAGER'S OFFICE

The highway crew has one day of tarring left. The work has gone extremely well this year. The average tar applied for each of the first five days was 7600 gallons. This is about a third more than past years. There are several reasons for the extra amount of tar being used. The single most important is that there have been no equipment troubles. Most of the time a sander or truck or some other piece of equipment will break down and the work for a couple of days is greatly reduced. Most of the streets and roads were patched and swept before tarring started.

It is surprising how a small item can improve a whole job. Last fall, when the winter sand was being screened, a stockpile of tarring sand was screened. The screened sand works much better and the tarring program has progressed more efficiently.

The extra amount of tar applied each day should have a positive effect on the price of tar next year. The tar company determines the price of tar for a town by the length of time their equipment is needed to apply the tar. They can sell a given amount of tar applied in three days much cheaper than the same amount applied in twice the time.

The men in the highway crew will have the week of July 11 for vacation this year. Two men will work next week on brush spraying but the rest of the crew will be off. When the crew gets back from vacation and caught up on some of the odd jobs that have been accumulating, the Town Road Improvement for 1966 will be started.

Michael Houlihan

N. T. L. WOMEN'S ACTIVITIES

The weatherman assisted Mrs. John Tellepsen in giving a warm, sunny welcome to newcomers of the National Training Laboratories at her home Tuesday morning. The new section of the lab has over 400 persons enrolled in the several programs, and, as the Women's Coordinators are learning, more of them than usual are wives of men here as delegates, interns or staff.

As a result of this, there has been a call for more events that can take place in the early afternoon after the women of the Wives Workshop and Parents' Sensitivity groups are at liberty. Thursday afternoon of next week has been tentatively set for a tour of the Ekco-Tellepsen mill, at Locke Mills, and Louise Lincoln will accompany the visitors with Maine government at coffee at Donna Albertson's next Wednesday morning.

Three tables of bridge were in play at the Douglas home Wednesday.

Mothers of little children and the tiny ones will enjoy a mid-day outing at Ed Saunders' cottage, Tuesday while others will go on a trip to Bates Mills.

SAFETY COMMITTEE URGES MOTORBIKE RIDERS TO WEAR PROTECTIVE HELMETS

The Chairman of the Maine Highway Safety Committee has urged motorbike riders to wear protective helmets.

Jack S. Atwood, upon receiving word from Governor John H. Reed that the two-wheel motor vehicle accident rate should be looked into called for more understanding by young people and parents on the problem. Said Atwood, parents and youngsters must come to realize that the motorbike is not a plaything. It is being operated on the same right-of-way as cars, trucks, and other vehicles. To treat it as a play vehicle is to put both rider and others in danger.

The safety chairman urged riders to wear protective helmets in order to cut down on the high rate of head injuries suffered in motorbike accidents. These things are not new," Atwood said, "and the Maine Highway Safety Committee joins in asking Maine citizens to realize their responsibility and to properly protect themselves for operation on the highway."

Atwood said that the Committee joins with the National Safety Council in asking that motorcyclists always operate at a safe and prudent speed and that all operators follow all motor vehicle laws. He also urged operators not to operate a motorbike in heavy traffic and to equip their bikes with adequate lights and reflective equipment.

Mr. and Mrs. Harold Stearns spent the holiday at Songo Pond.

MOLLYCOKETT DAY BAZAAR PLANS CONTINUE

Plans for the annual observance of Mollycokett Day are progressing. The Bazaar, scheduled for Saturday, July 23, will feature a parade at 11 a. m. The theme for the parade is "Space Age" and three prizes will be awarded for family floats, business floats, and organizational floats. Prizes for youngsters in the parade will also be given. To enter a float in the parade, call Ed Greenleaf at 4-2109 for entry information. The Come's dress and tiele corps, from Norway will participate in the parade and will give a demonstration on the common afterward.

The bazaar will be open all day, beginning at 10 a. m. and will remain open until 10 p. m. A supper will be provided by the joint efforts of the West Parish Congregational Women's Fellowship and the Methodist Men's organization. An auction will be held with Dale Thurston as auctioneer. The items to be auctioned will be collected all during the preceding week and the proceeds will go entirely for the work of the Bethel Health and Service Council. If you have any items which could be donated for the auction, contact Ronald Stearns at Songo Stearns at 4-2009 or 4-2430. An antique exhibit will be held in the home of Charles H. Stearns and is sponsored by the Bethel Historical Society.

Reading will be set up on Friday evening, July 23 beginning at about 8 p. m. A representative of the book booth is asked to be at the book booth with the help of a volunteer. The book booth will be set up at the Songo Stearns home.

It is a sad fact that there is a high incidence of complete ignorance of the law and its application for the day's work on operating motor vehicles. If there are no regulations, suggestions, and information, the Bureau of Motor Vehicle Safety is a play vehicle to fool hardy and dangerous.

The safety chairman urged riders to wear protective helmets in order to cut down on the high rate of head injuries suffered in motorbike accidents. These things are not new," Atwood said, "and the Maine Highway Safety Committee joins in asking Maine citizens to realize their responsibility and to properly protect themselves for operation on the highway."

CONNECTICUT MAN DROWNS AT SONGO POND

Jean Claude St. Hilaire, 27 years old, of Meriden, Conn., drowned in Songo Pond Sunday evening. He reportedly fell from his boat while repairing an outboard motor. He could not swim. The accident occurred about 7:30 p. m.

Divers from an underwater rescue team were called to the scene. The body was recovered Monday morning at about 7:40 by Alfred Galsgovich of Lisbon Falls about 50 feet from shore.

A ruling of accidental drowning was given by Oxford County Medical Examiner Walter Dixon. Deputy Sheriff Alton Howe, Bethel, investigated the accident, assisted by Deputies Arnel Brown of Bethel and Earl Barker of Bryn Mawr.

Born Nov. 22, 1940, in St. Louis, Mo., Mr. St. Hilaire was the son of Charles and Albertine Focher St. Hilaire. He resided in Meriden, Conn., for the past one and one-half years. Prior to that he had lived in Berlin. Mr. St. Hilaire was a member of St. Joseph's Parish in Meriden, Conn. He was employed at the International Silver Company in Meriden as a lathe operator.

Surviving are his widow, Mrs. Rita Focher St. Hilaire, a daughter, Mrs. Mary Ann St. Hilaire, and a son, Mr. Charles St. Hilaire, all of Meriden. The father of St. Hilaire was a member of St. Joseph's Parish in Meriden, Conn., and was a member of the International Silver Company in Meriden as a lathe operator.

Surviving are his widow, Mrs. Rita Focher St. Hilaire, a daughter, Mrs. Mary Ann St. Hilaire, and a son, Mr. Charles St. Hilaire, all of Meriden. The father of St. Hilaire was a member of St. Joseph's Parish in Meriden, Conn., and was a member of the International Silver Company in Meriden as a lathe operator.

SIC AWARDS \$5.3 MILLION IN HIGHWAY CONSTRUCTION DURING JUNE

The State Highway Commission reports that twenty-four highway construction projects were awarded to contract during the month of June totaling an estimated \$5,297,412.

Eight Interstate projects were awarded. One contract calls for the complete construction of the freeway, including the pavement, in Sherman and Crystal beginning at Molokuni Stream and extending northerly about 5 miles. The remaining seven projects were awarded under a single contract and are for modifications to guard rail sections along the mileage of Interstate Highway open to traffic. The straight ends to the sections have been found to be dangerous and are being replaced with curved end pieces.

Projects for highway construction were awarded for work in Carleton, Rollinston, Carleton, Maine, Lee, Jay, Lewiston and Millinocket. The work in Carleton is another phase in the overall plan to relocate 1 1/2 S. Route 1 through the congested area of town. The project project will build about 1 1/2 miles of the divided highway between Lawrence Street and Route 1. In Rollinston the project will be to build along S. Route 1 in the area near Millinocket. The new road will eliminate the most hazardous curve and will be the new Millinocket.

The project project will build about 1 1/2 miles of the divided highway between Lawrence Street and Route 1. In Rollinston the project will be to build along S. Route 1 in the area near Millinocket. The new road will eliminate the most hazardous curve and will be the new Millinocket.

Projects for highway construction were awarded for work in Carleton, Rollinston, Carleton, Maine, Lee, Jay, Lewiston and Millinocket. The work in Carleton is another phase in the overall plan to relocate 1 1/2 S. Route 1 through the congested area of town. The

Turbotrains A First For Canadian National

Photo Courtesy Canadian National Railways

Canadian National Railways' "Husker" built as the fastest and individually controlled road-rail passenger train in North America, now runs between Montreal and Toronto, a distance of 335 miles, in four hours and 55 minutes. The turbotrains eventually are expected to cut the time to less than four hours.

The turbotrains will be powered by 450-horsepower E7C gas turbine engines, burning diesel fuel. These are mounted vertically in the E7C free-turbine engine units by United Aircraft Corporation. Each turbine is linked to a generator, to supply the train's electrical requirements. Numerous interior features will be provided for the comfort and convenience of passengers. These include carpeting, through-the-train adjustable drop and tilted glass in each window; soft, indirect lighting; electrically controlled reading lights; electrical heating and air conditioning; roomy, reclining seats with headrests, and slight pressurization to keep out noise, dust, heat and cold.

Meals and beverages will be served from galleys to passenger cars. Passengers will be able to walk from galleys to restrooms at several points in the train where they can get food and drink to take back to seats equipped with fold-down trays. A 14-seat baggage car of 100 cubic feet capacity will hold about 60,000 pounds of baggage. A 14-seat baggage car of 10 cubic feet capacity will hold about 60,000 pounds of baggage.

Travel in Canada is expected to be more comfortable and convenient than ever before. The new trains will be able to travel at speeds of up to 100 miles per hour, and will be able to travel on both mainline and branch lines.

SELECTED C. D. PERSONNEL TO RECEIVE RESCITATOR TRAINING FRIDAY EVENING

Friday evening at 8 o'clock a group of registered nurses, licensed practical nurses and nurses aides with Mrs. Dale Thurston, R. N., of the Bethel Civil Defense and Public Safety Agency will receive instruction in the use of the resuscitator at the Bethel fire station.

Edison Greenleaf has been appointed Medical Administrative Officer to replace Larry Davis who has moved away.

HISTORICAL SOCIETY ORGANIZES

The annual meeting of the Bethel Historical Society was held in the library on June 28. Sixteen members were present.

It was agreed that the name would be the "Bethel Historical Society" but that the area covered would include the surrounding towns as well as Bethel. That date would be one dollar a year without initiation fee; and that meetings would be held the fourth Tuesday of each month.

Miss Eva Dean was elected secretary and Mrs. Carroll Valenline was elected Treasurer, ending the meeting with \$10.00.

Mrs. Edith Howe was elected chairman of the Membership Committee, other members being Mrs. Rosalind Chapman and Mrs. Olive Head. Additional members are to be appointed by Mrs. Howe in order that all communities will be represented.

In order to make the meetings of interest to all members and guests it was decided that there should be a 20-minute presentation of each meeting covering three interesting phases of the town's history. Miss Ida Packard and Mrs. Florence Thurston were appointed on a program committee to work with the officers in this connection.

It was considered important to have a list of the older houses and places of interest in Bethel and the adjoining towns with the idea of having their history carefully listed and possibly identified by suitable markers at some future day. Fred Grover agreed to serve as chairman of a committee to work on this.

Members of the future of the Middle Intervale Church indicated the need to determine the present ownership. The matter was tabled until further information was developed.

It was recognized that when the Society undertakes special projects there would be a need for publicity in the various papers. Mrs. Elizabeth Carter agreed to act as chairman of a Project Publicity Committee.

While not officially approved at the meeting, members are planning to have a Bethel Historical Exhibit in connection with the Mollusket Day program. Reservations will be asked to loan for the day any family possessions that lend themselves to display which represent the life of early Bethel citizens. Possibly the Judge Hiram's chair would be suitable for such an exhibit being fairly close to the common.

Members present were: Eva Dean, Florence Bond, Elizabeth M. Carter, Rosalind M. Chapman, Frederick Grover, Rosalind D. Baker, Charles Herwood, Edith M. Howe, Geraldine S. Howe, Ida Packard, Faye Taylor, Nellie Tumbulake, Florence Thurston, Ned Valentine and Ella Weidner.

ACCOUNTANT OPENS OFFICE IN RUMFORD

Rumford J. Hibbs has opened an office as a public accountant specializing in management services at 27 Congress Street, Rumford. Mr. Hibbs is a 1959 graduate of the University of Indiana with a B.S. degree in Accounting. He also received his law degree from the same university in 1959 and was admitted to the Maine bar in 1960. Mr. Hibbs was with the Portland accounting firm of Miller, Fish and Dresser from 1959 to 1963 and was then with the Hayes Tire Co. three years as controller. His new office, along with the general practices of public accounting, will work at analyzing potential markets, creating budget programs, projecting cash flows of money for businesses, and other like functions. Mr. Hibbs' office hours presently are Tuesday, Wednesday, and other days by appointment.

FLASH!

This year's Mollusket Day parade, directed by the Bethel CB Monitors, Inc., will feature the "Comets" drum and bugle corps from South Paris. The parade committee is asking your help in making this the biggest and best parade ever. You can help by entering your float.

Prizes this year will be given in the following categories: Business concerns, organizations and family floats.

If you are not contacted within a few days by one of the parade committee, we urge you to take the initiative and contact one of the committee to enter your float. A tentative deadline of July 25th, has been set for parade entries. Members to contact are: John Greenleaf or Edson Greenleaf.

OMISSION

Omitted from the list of guests at the Cummings reunion in last week's paper were: Mrs. Albert Martin (Eleanor Cummings), Albert Jr., Harry, Jack and Peter of Newry.

SGT. JAMES B. BARTLETT

Local citizens were saddened this week by the news of the death of Sgt. James Basil Bartlett, U. S. Army, son of Mr. and Mrs. Floyd Bartlett of Rye, New Hampshire. He was killed in Viet Nam, Saturday, July 2, according to Defense Department sources.

Sgt. Bartlett had been in Viet Nam for the past year. Previously he had been an honor guard at Arlington National Cemetery.

He was born April 6, 1942, in Hanover, N. H., and after graduating from Gould Academy in 1961, attended the University of Maine. He enlisted in the Army four years ago.

Survivors include his parents, Floyd E. and Lavina Smart Bartlett, Rye; two sisters, Mrs. Donna Jones, North Hampton, N. H., and Miss Mary Anne, Rye; paternal grandmother, Mrs. Lottie Bartlett, Bethel, and maternal grandmother, Mrs. Clara Smart, Portsmouth.

A military funeral will be held in Portsmouth, and burial in Rye, N. H. The Bartlett address is Mr. and Mrs. Floyd Bartlett, 96 Sagamore Road, Rye, N. H.
